

# Make Your Restaurant Smarter

## Digitize your restaurant operations in a post-pandemic world

Over 50% of restaurant operators predict it will take a year or more for business costs, revenue, and conditions to return to pre-pandemic levels. With improved tools for organizing orders, managing staff, and optimizing business efficiency, robust POS systems offer many benefits for restaurant owners to transform their operations in a new normal.

## Give Your Diners the Convenience They Want

### Drive-Thrus

Drive-thru meals accounted for 42% of all restaurant visits during the pandemic

**36%** of diners say that drive-thru options keep them coming back to a restaurant

### Ghost Kitchens

Ghost kitchens prepare meals quickly and efficiently for delivery, takeout, and drive-thru.

**50%** of drive-thru and takeout service will be delivered through ghost kitchens in the next few years

### Curbside

Curbside pickup allows for easy and contactless dining.

**74%** restaurants in a 2022 survey said that they have adopted or will soon adopt tech solutions to offer curbside pickup.

# Work with Mainstreet

## You need someone you can rely on and someone you can trust.

We understand the world of configuring, deploying, and supporting systems from traditional retail technologies to mobile devices and back office systems. Mainstreet's entire business model is centered around services, not just selling hardware.

From procurement to integration, rollout, and repair, we are a services-based business that focuses on the needs of our clients.

## Transitioning from a Legacy System

**We've been there.** It can be frustrating to work on outdated, unreliable equipment, but equally stressful to make a big change. We offer solutions to make the process seamless and painless.

### Customizable Solutions

We can integrate with your existing systems to bring updated, complementary solutions into your POS

### Full Installation Service

Nationwide on-site installation, deployment, and integration lets you focus on your business

### Lifecycle Management

We have you covered, from equipment upgrades to securely disposing of de-commissioned or surplus equipment

### Flexible Financing

Financing options are available for hardware, software and deployment costs
