

Tailor Your Retail Tech

Mobile POS and Automation Tools for Leading Chains

Today's retail businesses need adaptable technology for a quickly changing landscape. Whether you're migrating from legacy systems to newer ones or extending the lifespan of your existing systems, there are many opportunities for maximizing the return on your investments. At Mainstreet, we work behind the scenes to keep some of the most respected retail chains up to date.

Customers Want Convenient and Personalized Experiences

Mobile Wallets
Contactless Payment
Self-Checkout
In-Store Wi-Fi
Curbside Pick-Up
Online Buying

44% of retailers say a top challenge of the next 3 years will be transitioning from legacy systems.

You Want Tools That Cover Everything

Mobile POS
Employee Management
Self-Checkout Solutions
Cloud Integration
Automated Inventory Management
Seamless Ordering Pick-Up, and Delivery
Loyalty Rewards Programs

Work with Mainstreet

You need someone you can rely on and someone you can trust.

At Mainstreet, we've been providing our clients with custom-built technology solutions for over 20 years. We understand the world of configuring, deploying, and supporting systems from traditional retail technologies to mobile devices and back office systems.

Transitioning from a Legacy System

We've been there. It can be frustrating to work on outdated, unreliable equipment, but equally stressful to make a big change. We offer solutions to make the process seamless and painless.

Customizable Solutions

We can integrate with your existing systems to bring updated, complementary solutions into your POS

Life Cycle Management

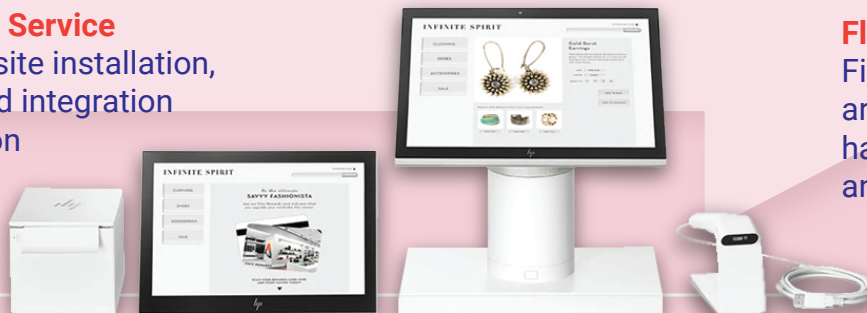

We have you covered, from equipment upgrades to securely disposing of de-commissioned or surplus equipment

Full Installation Service

Nationwide on-site installation, deployment, and integration lets you focus on your business

Flexible Financing

Financing options are available for hardware, software, and deployment costs
